Attorney General John Ashcroft
US Department of Justice
950 Pennsylvania Avenue, NW
Washington, DC 20530

Dear Mr. Ashcroft:

I am in support of the settlement proposed in the antitrust case between the Department of Justice and Microsoft. The settlement offers terms that I feel are beneficial to technology users and sufficient enough to end all of this litigation.

I think that the internal interface disclosure, licensing of Windows products, and technical committee in the settlement all open the doors for increased competitive behavior. If the government alleges that Microsoft was involved with anticompetitive behavior, then the problem is rectified.

We need an end to drawn out legal proceedings. It is time to allow Microsoft to get out of court and get back to business. Support the antitrust settlement.

Sincerely,

Joan Stupler
